INTRODUCING KOALA ACOUSTIC

We are excited to be launching our new acoustic brand – Koala Acoustic. Our brand promises to deliver acoustic solutions that are not only aesthetically pleasing and functional, but also eco-friendly.

Koala Acoustic products are manufactured in Ireland by Edit Office with a CNC machine based in our warehouse. Each acoustic panel is manufactured from recycled material. The range is available in 24 colours with some options being stocked for immediate delivery.

Available Ranges

- Freestanding Screens
- Desk Mounted Screens
- Bench Screens
- Wall Panels
- Workspace Dividers
- Planters
- Ceiling/Wall Tiles
- Grids
- Booths
- Printing
- Pin Boards
- Stools
- Wooden Slats

A CREATIVE ACOUSTIC BRAND THAT OFFERS PRODUCTS THAT ARE NOT ONLY AESTHETICALLY PLEASING AND FUNCTIONAL, BUT ALSO ECO-FRIENDLY

ABOUT THE KOALA MATERIAL

- Made from recycled material
- Fire Retardant Material
- Sound Absorbing Material
- Antifungal Material

Let's delve into the remarkable attributes of our Koala material. We're thrilled to offer PET material crafted from recycled sources, showcasing our commitment to sustainability. Moreover, our material boasts antifungal properties, proactively preventing mold growth and safeguarding against potential issues.

What truly sets our Koala material apart is its multifaceted benefits. Not only does it champion eco-friendliness through recycled PET materials, but its antifungal characteristics ensure a healthier and safer environment for all occupants.

Our 12mm and 24mm panels feature impressive Sound Absorption Coefficients, making them ideal for environments where noise reduction is paramount. Whether it's a bustling office or a lively restaurant, our Koala material contributes to a more serene atmosphere.

Additionally, our fire-rated material provides an added layer of safety and peace of mind in any setting. When you choose our Koala material, you're not just acquiring a product; you're investing in quality, sustainability, and innovation.

KOALA WORKSPACE DIVIDERS

KOALA WORKSPACE DIVIDERS

Koala Workspace Dividers are made from premium acoustic panels and recycled PET material (recycled bottles) and come in an extensive range of designs and colours. These dividers act as a physical division between spaces within offices or other rooms, whilst also introducing some added acoustic absorption to reduce overall noise. Dividers are suspended from the ceiling.

The suspended design means that the dividers do not take up any floor space, leaving more room for furniture and equipment. With so many designs to choose from, there is sure to be an option that complements the existing decor of any office or workspace. Upgrade your office today with Koala Workspace Dividers.

RECYCLING PET, REDEFINING SPACES

At Koala Acoustic, sustainability isn't an add-on – it's part of our story. Each panel is crafted from recycled plastic bottles, transforming waste into purposeful design. Engineered to soften sound and create calmer spaces, Koala panels combine exceptional acoustic performance with vibrant, solid colour throughout. They have become a trusted choice for managing reverberant sound and elevating interiors across workplaces, education, hospitality and beyond.

Our recycling process ensures every Koala panel has a life beyond its first use. This circular approach reduces waste, conserves energy, lowers carbon emissions and helps protect natural habitats. When panels reach the end of their service life, their materials can be recovered and reintroduced into production, keeping valuable resources in circulation and aligning acoustic wellbeing with environmental responsibility.

Guided by a mission to improve wellbeing and create healthier, happier spaces worldwide, Koala Acoustic continues to deliver innovative acoustic solutions and furnishings designed for the needs of the modern workplace and beyond.

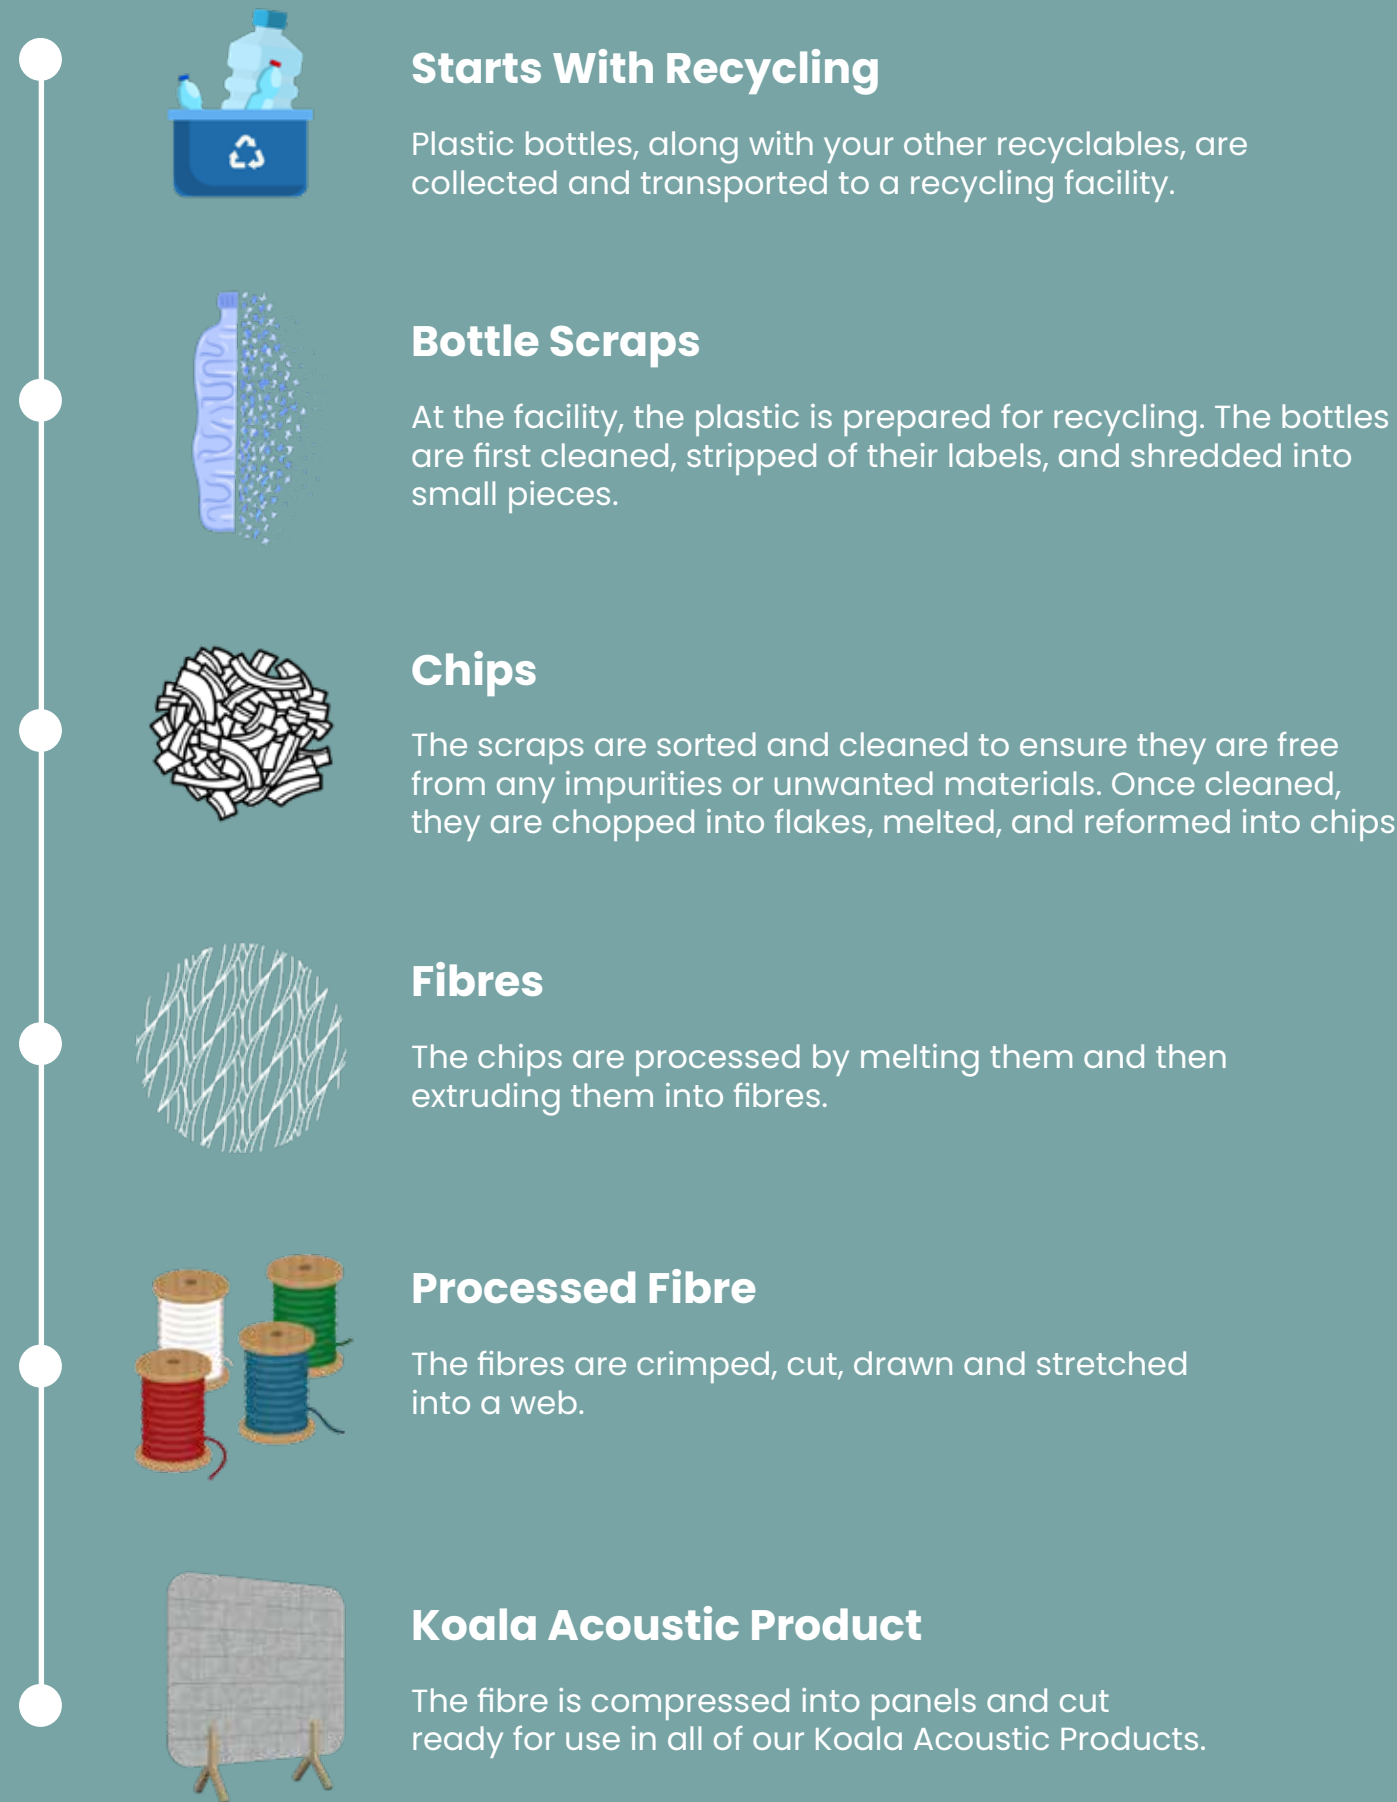

FROM BOTTLE TO PANEL

Each panel is crafted from 100% polyester fibre, with up to 100% of the material sourced from recycled PET, mainly from plastic bottles. With low embodied energy and no chemical binders such as formaldehyde, Koala panels support healthier indoor air quality while reducing environmental impact.

THE PET PROCESS

The journey from a plastic bottle to a finished Koala Acoustic product.
